Explorers of the Body: Dramatic Breakthroughs in Medicine from Ancient Times to Modern Science

By Steven Lehrer

iUniverse, United States, 2006. Paperback. Book Condition: New. 2nd. 223 x 147 mm. Language: English Brand New Book ***** Print on Demand *****.How does the body work? This question has intrigued and occupied mankind since soothsayers first peered into animal entrails. From the primitive medicine of ancient Egypt to the mind-boggling achievements of modern laboratories, the healing craft has been a fascinating part of man's progress. Explorers of the Body is a history of medicine told through lively stories of the men and women who made the great breakthroughs in our understanding of human physiology: Edward Jenner, Gregor Mendel, Marie Curie, Jonas Salk, William Harvey, Louis Pasteur, Joseph Lister, and many others. Explorers of the Body is an exceptionally good book, both amusing and educational. - Isaac Bashevis Singer Lots of good medical lore-and juicy. - Kirkus Reviews The author has accomplished a tour de force. - Nature An engrossing account of the medical milestones upon which 20th Century medicine is based. - Library Journal Factual accounts often stranger and more dramatic than fiction. Among the many lively anecdotes is the story of the unusual collaboration between bacteriologist-writer Paul de Kruif and Sinclair Lewis, which produced the latter's prize-winning novel...
