Reviews

This pdf is indeed gripping and interesting. It is definitely simplistic but shocks within the 50 percent of your book. Once you begin to read the book, it is extremely difficult to leave it before concluding.

When I say time is running out, that doesn't mean that your physical body is going to die soon, or that all of the people on Mother Earth are going to die soon. Simply, it means that changes are occurring at a faster rate than normal. So, if you are on your spiritual path as a teacher or leader, then now is the time to complete all of your incomplete projects and ideas and have them available to assist others for the upcoming changes. Changes may include different ceremonies, meeting different people, accepting new ways of life, and being open to traveling and experiencing unexpected places. This book is not only for healers and leaders; it is for beginners or even intermediates who want to follow their inner voice or higher self. This book is for those opening up to their spiritual walk in this lifetime. Maybe you are someone who just needs some friendly reminders or some new information to help you along your journey.
