

Hydro-Electric Power Electrical Equipment and Transmission, Vol. 2 (Classic Reprint)

By Lamar Lyndon

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Hydro-Electric Power Electrical Equipment and Transmission, Vol. 2 This volume forms a companion to, and is, in fact, a continuation of Volume I. There is no definite point of division between the two volumes and this treatise was divided into two sections solely to make it less cumbersome and more convenient for reference. The treatments of many of the subjects are new and some of the formulae have never previously been published. Like Volume I, this book is founded on experience and accepted practice, and is in no wise an academic treatise. The fundamentals of electric circuits, discussed from a physical instead of a mathematical standpoint, have been included after careful consideration, in the belief and expectation that this portion of the text will be useful and convenient for engineers who already understand the principles of electrical circuits and alternating currents. The author is glad to be enabled to include Mr. H. B. Dwight's chart for the solution of transmission line problems, as it constitutes an admirable method of quick computation and saves both...
