## PLANT BIOTECHNOLOGY FOR SUSTAINABLE PRODUCTION OF ENERGY AND CO-PRODUCTS

To download **Plant Biotechnology for Sustainable Production of Energy and Co-products** eBook, remember to follow the web link below and download the file or gain access to other information which are have conjunction with PLANT BIOTECHNOLOGY FOR SUSTAINABLE PRODUCTION OF ENERGY AND CO-PRODUCTS ebook.

Springer-Verlag Gmbh Sep 2010, 2010. Buch. Book Condition: Neu. 247x163x25 mm. - The successful use of plant biomass for the sustainable production of energy and co-products such as chemicals is critically important for the future of humanity. Large scale exploitation of biomass is needed to decrease the production of greenhouse gases and help mitigate global warming, to provide energy security in the face of declining petroleum reserves, to improve balance of payment imbalances, and to spur local economic development. This volume discusses such uses of plant biomass as well as ways to improve the productivity and composition of plant species, including trees, perennial and annual grasses, oil-producing plants and algae, that have the potential to produce substrates such as sugar, starch, oil and cell walls, as well as energy and co-product substrates. The problems of invasiveness and gene dispersal are discussed, as are ways to mitigate these. Among the topics covered are models for integrated biorefineries to produce many co-product chemicals, the use of corn stover to power ethanol plants, life cycle analysis of biofuels, and criteria for biomass sustainability and certification. This is indeed an exciting and fast-moving time for advocates of plant biomass-based technology. 458 pp. Englisch.
