The transportation sector accounts for a large and growing share of global greenhouse gas (GHG) emissions. Worldwide, motor vehicles emit well over 900 million metric tons of carbon dioxide (CO₂) each year, accounting for more than 15 percent of global fossil fuel-derived CO₂ emissions. In the industrialized world alone, 20-25 percent of GHG emissions come from the transportation sector. The share...

Reviews

This publication can be well worth a study, and far better than other. Better then never, though i am quite late in start reading this one. Its been printed in an exceedingly simple way and it is only soon after i finished reading through this book in which really transformed me, alter the way in my opinion.
